Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 5-7 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification does not describe "means to brake [the] retraction of said guidance tape by piston means". Nowhere in the specification does this clause or terms appear and the drawings do not show the means for breaking [the] retraction.

Claims 5-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claims 5 and 7, recite the limitation "piston means" in lines 4 and 7, respectively. It is unclear what this piston means comprises. The disclosure does not indicate what exactly is the piston means.

Claim 5 recites the limitation "the retraction" in line 4. There is insufficient antecedent basis for this limitation in the claim.

Claim 6 recites the limitation "said weight means" in line 4. There is insufficient antecedent basis for this limitation in the claim.

Claim 7 recites the limitation "the retraction" in line 7. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 1 is rejected under 35 U.S.C. 103(a) as being unpatentable over European patent, EP-375,580, in view of Gompertz et al., 6,349,503.

Regarding claim 1, the European patent '580 discloses in Figure 1 an extendible guidance tape crowd control stanchion comprising a base **A**, a post **2**, a fixed top block assembly **3**, movable bottom block assembly **12**, and an extendible and retractable guidance tape **4**. The post **2** is attached to the base **A**. The fixed top block assembly **3** is attached to the post **2**. The fixed top block assembly **3** comprises a plurality of rollers **10**. The movable bottom block assembly **12** is contained within the post **2**. The movable bottom block assembly **12** comprises a weight **13**. The extendible and retractable guidance tape **4** is laced between the fixed top block assembly **3** and the movable bottom block assembly **12**. The extendible and retractable guidance tape **4** comprises an extendible and retractable guidance tape **4** and means **5** for attaching the extendible and retractable guidance tape **4**. However, the European patent fails to disclose the bottom block assembly comprising of rollers.

Gompertz et al. (See attachment) teaches in Figure 4 a bottom block assembly **A1** comprising rollers **54** to quadruple a length of tape **34**, **50** per distance that is released (col. 5, line 64 - col. 6, line 5) from the post. Therefore, as taught by Gompertz et al., it would have been obvious to one of ordinary skill in the art at the time the invention was made to comprise the bottom block assembly of more than one roller to quadruple the length a tape that is released from a post.

Response to Arguments

Applicant's arguments with respect to claim 1 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
